The Smile News

DECEMBER 2010 / JANUARY 2011

On the Dental Side

Get started toward a beautiful smile today!

I am excited to tell you that we now offer Invisalign Teen—the clear alternative to braces—now for teens!

This revolutionary new product can straighten your child's teeth.

Invisalign Teen's clear aligners are virtually invisible. Even better, they're removable. This means teens can eat whatever foods they want, and brush and floss with ease!

Invisalign Teen aligners are made from a lightweight plastic material, and they fit precisely on the teeth—almost like a glove.

Most teens have a non-stop lifestyle, and sometimes, they lose things.

Including aligners! But with Invisalign Teen, that's no problem. If you lose your aligner, just let us know ASAP, we can have a replacement sent quickly.

Invisalign Teen is clear,

comfortable, and virtually invisible.

For more information on Invisalign Teen, contact our office today!

-Dr. Yang

Time to Reflect

As 2010 draws to a close I would like to thank all my wonderful patients who brighten SmilingYangs! Every patient is special and we truly enjoy helping you achieve a bright, happy and healthy smile.

We wish everyone a Happy and Healthy Holiday Season and a Happy New Year!

Retain the Retainer Knowledge

Patients and parents will get a greater return from their orthodontic investment by following these instructions:

Wearing your retainers as instructed is the critical step that will assure maintenance of the successful result. The patient should practice speaking or reading out loud with the appliance. In three or four days, your speech will return to normal. After a short while, the excessive salivation will dimin-

ish. The appliances are fragile and can be damaged by dropping them on hard surfaces, allowing children or pets to find and play with them, pressure if placed in your pocket, etc. Gum and candy will stick to the plastic and are difficult to remove. In short, the appliances are expensive to replace so treat them as you would for other fragile valuable items, such as jewelry or eyeglasses.

"Retainers are one of the most vital aspects to your post-orthodontic treatment."
